Mission:
To assist persons with visual impairments to develop their capabilities to the fullest, and to utilize them in the pursuits of life, which are the right and privilege of all.

History:
Since 1946, Lighthouse for the Blind of the Palm Beaches has been providing direct education and rehabilitation services to people who are blind or visually impaired in Palm Beach, Martin, St. Lucie, Indian River and Okeechobee counties. Our private, nonprofit organization is the only one of its kind based in West Palm Beach, Florida.

Dear Friends,
As we came to the close of another decade, I am happy to report that Lighthouse for the Blind once again served a pivotal role in transforming the lives of the blind and visually impaired in our community. Over 2,000 babies and children received vision screenings in 2019. This is so vitally important, as catching a visual impairment early makes a world of difference. Children who are not treated early in life can develop permanent vision loss that can’t be corrected later in childhood or as adults.

In 2019 we said good-bye to Lighthouse President and CEO Marvin Tanck. Marv was instrumental in Gulfstream Goodwill’s partnership with Lighthouse in 2008. He championed Lighthouse’s mission and helped grow Lighthouse into the strong agency it is today.

Thanks to the advances in technology, many of our clients are learning to navigate voice assistants, smart phones and other computer technologies. A large percentage of our clients learn remotely, thanks to the extraordinary efforts of our staff, it made the transition of working from home easier during the COVID-19 pandemic.

This virus has changed all of us and has impacted everyone differently. But as a human service nonprofit organization, we must stay strong for the clients we serve. Perhaps Helen Keller said it best: “Alone we can do so little. Together we can do so much.”

Reflecting on the past year for this report, has been so challenging when we are faced with an uncertain future. It is you, our valued donors, volunteers and supporters whom we must rely on now more than ever. We must realize that each of us is integral to the survival of our communities. We are responsible for each other.

On behalf of all the people whose lives you’ve touched through your generous support, we thank you and hope you enjoy our Annual Report!

Best Regards,
Donté Mickens

2019 – A YEAR IN REVIEW

Blind Babies and Vision Loss Prevention Program
Over 2,000 babies and toddlers received vision screenings and/or developmental services. (Birth to age 5)

Children’s Program - Learning Independence through Experience and Summer Camp
25 Children (6-13) attended Lighthouse’s Children’s Program

Transition Program
23 Teens participated in programs for students age 14 through high school graduation

Vocational Rehabilitation
70 Adults worked on skills to gain, re-gain or maintain employment

Adult Programs
255 Adults participated in various programs. Age-related macular degeneration (AMD), a leading cause of vision loss for people age 50 and older, is the main reason seniors came to the Lighthouse in 2019 for services. AMD doesn’t cause complete blindness, but can make it harder to see faces, read, or do daily tasks like cooking and other chores around the house. Lighthouse staff provide instruction in daily living skills, assistive technology, adjustment to blindness and orientation & mobility.

“Fifteen month old Adalynn attended the fall Stroller Daze event at the South Florida Science Center. She was given a vision screening, which resulted in possible vision concerns. A pediatric ophthalmologist confirmed the diagnosis and stated several times ‘this was a good find,’ as if this had gone untreated she would have had major vision loss by age 5. Our family considers this a blessing, she was in the right place, at the right time. We are forever grateful.”
- The Family of Adalynn Miller

2019 Major Events

Feb. 2nd Annual Chili Cook-Off at the Lighthouse
